UPDATED FOR OCTOBER 2026

Your kid is in good hands.

Talata is a growing club of **over 100 players** on Østerbro, coached the modern way: **real games, real decisions, real joy**. We do not put children in lines and lecture them. We design games that teach, and we let players discover the answers.

Our three values

Joy

Kids come back because it is fun. Everything starts there.

Excellence

Full effort, full attention, full presence, at every age and level.

Respect

For teammates, opponents, referees, coaches and the game. Respect for all.

Body and mind

Strength and mental work is built into the Academy week every Monday. Mental training, confidence, focus, knowing yourself, has always been part of how we coach, and we keep building on it.

How far we have come

We started with **20 players** in August 2024, one team, Academy age only. Today we are **over 100 players** across every age group, girls included, and still growing. That is **five times the club** we were two years ago. **Deyan**, one of our very first players, still trains with us, and **Johan**, another of the originals, plays high school basketball in Ohio this year. That is the club your child is joining: still growing, still the same values.

This is Season 3. Talata means three, and our program has always run on threes: **Joy, Excellence, Respect.**

The season in one paragraph

Training started **Monday August 10**. August was our foundation month: conditioning, movement and fundamentals, taught through games. September built team play and brought the **first league and cup games**. From October we are in season through spring, with a January reset block, and we close the year in May and June with awards, player meetings and summer camps.

A new Academy week from October. Tennis has moved indoors at Svanemøllehallen, so the Academy week now runs across four halls. Page 02 has it. Hall time in Copenhagen can still move during the season, and if anything changes you hear it from us in Holdsport first.

Where your child fits.

Open Gym, included free: Wednesdays 16:00 to 18:00 and Saturdays from 12:00 at Kulturhuset Indre By. Optional and self-directed, no extra cost with membership.

What the week looks like.

- **Mini (5 to 9):** one hour of movement, ball handling and small games, twice a week. Fun first. No experience needed.
- **Junior (10 to 12):** real basketball foundations, twice a week: dribble, pass, finish, defend, always through games. The bridge into Academy.
- **Academy (13 to 19):** four sessions a week for U15 and U17, three for U19, plus Wednesday open gym. Strength and mental work every Monday, and every team plays DBBF league games.
- **Men + Fitness (18+):** our competitive 3. Division team and a recreational fitness group share the Monday and Friday evenings.

The teams we have this season

Six Talata teams play in the Danish league (DBBF) for 2026/27, plus our girls who play through Stevnsgade.

Every game, time and hall is on talatabasketball.dk/games and in Holdsport.

Why 1 October matters. Which team your child plays for is decided by their age on **1 October**, not by their school year and not by their birth year. A player who turns 15 in November is still U15 for the whole season, because they were 14 on 1 October. Abroad our U15 group plays as U14, because international leagues go on birth year. Ask us if you are unsure rather than guessing.

Holdsport is our one app. Schedule, sign-ups, game days, messages: everything lives in Holdsport. If it is not in Holdsport, it is not happening. You get the invite when your child joins.

How the fee works.

Membership 2026/27

PROGRAM	FEE
Mini	1.800 kr per half-season
Junior	1.800 kr per half-season
Sparks only (girls 6 to 14, Monday)	1.200 kr per half-season
Sparks plus one weekday session	1.800 kr per half-season
Academy (13 to 19)	3.300 kr per half-season
Men + Fitness (adults)	2.000 kr per half-season

The first session is free. Your child's exact rate is confirmed at signup.

Fees are down this year: Academy 4.000 to 3.300 kr per half-season, Men 2.200 to 2.000. We have grown to **over 100 players**, and a bigger club means a fairer price.

How payment works

- **Holdsport charges everyone the same 1.800 kr baseline**, whatever team your child is on. You pay that in the app.
- **Academy adds 1.500 kr on top**, and **Men and Fitness add 200 kr**. Send the top-up by MobilePay or bank transfer to the club details at the bottom of every page on talatabasketball.dk, with your player's name as the reference.
- **MobilePay and bank payments do not show as paid in Holdsport**. Reply to the club with the date you paid and we mark it by hand.
- **Mini and Junior pay the 1.800 and nothing more**. A Sparks-only girl pays 1.200.
- **You are charged the baseline once**, even if your child is registered on more than one team. If you have been billed twice, tell us and we fix it.
- **Fee paid means you play**. Unpaid means you sit out, and that goes for everyone.
- **Something looks wrong? Do not pay it**. Write bestyrelse@talatabasketball.dk and we sort it first. If you have already overpaid, tell us and the difference comes back.
- **If cost is the barrier, write to Deng privately**. We have arrangements and we apply to the kommune. No child has been turned away over a fee.

Kit and jerseys: the Talata Shop. Everything is at talatabasketball.dk/shop: jerseys with name and number, hoodies, tees, socks and bundles, at member prices. No login. You pay by MobilePay, and checkout gives you the number. The old Google gear form is retired.

What the season looks like.

WHEN	WHAT IS HAPPENING
August	Foundation. Conditioning, movement and fundamentals through games. Test Day gave every Academy player a baseline.
September	Build. More team play every week. Squads and roles settle, and the first league and cup games are played.
October to December	In season. The new Academy week, a weekly rhythm of training and games, mid-season player reviews and a parents' evening. Autumn camps in the October school break, and a camp after Christmas.
January	Reset. Back to the foundation block: body, fundamentals, fresh goals, retest.
February to April	The run-in. The business end of the season, for every team.
May to June	Close and grow. Awards, individual player meetings, summer camps.

What we ask of families

- **Arrival:** the training time in Holdsport is when practice starts. Please arrive 15 minutes early: shoes on, bottle filled, ready to move at the start time.
- **Gear:** indoor shoes, water bottle, and a snack for the long afternoons. Game jersey from the Talata Shop (page 04).
- **Games:** most youth games are on weekends. Details always in Holdsport.
- **Fees:** paid on time, so your child stays on the floor.

Your checklist

- Holdsport invite accepted and profile up to date, **created in the player's name, not yours**
- Baseline 1.800 kr paid in Holdsport, and the top-up sent if your child is Academy or an adult
- Kit ordered at talatabasketball.dk/shop
- Joined the parent/player WhatsApp group for your team

What your child gets

Two to five sessions a week depending on age, strength and movement training built in, a mental game (confidence, focus, self-knowledge) trained on purpose, real games against real opponents, and coaches who know their name from day one.

We take the game on the road.
